## thank you...

What a journey we've walked since we made and sold those first ten pencils on a gorgeous summer day in Cape Town twenty four years ago.

Many of you have walked some or most of that journey with us, buying pens and pencils for your shops, businesses and conferences since the early 1990's, and sharing our success along the way.

Thank you for being part of that journey and we hope to walk the road together for many years to come.

It's hand made...

Sometimes it takes a while longer than expected for us to meet demand. Why is that? Every pen and pencil we make is handmade. And we mean **hand** made.

From picking each stick up from the forest floor, to drying cleaning, cutting, painting, pen insertion, decorating, making the little creatures, painting them by hand... these pens are tiny works of art, every one. An order of 100 pens will have more than a hundred processes, and more than ten thousand paint brush strokes!

We also have a solid reputation in the conferencing and corporate gifting industry for delivering hand made gifts in tight deadlines...so if we're trying to push out 1000 conference pens in 48 hours, there may be delays down the line!

Thanks for having patience when we take a little longer than usual to create your special order.

## What's what for the tourist shops?

When a product's been around as long as ours you can be sure there's ongoing product refinement to make sure it stays fresh. We know we reached the million pen mark some time ago, but we don't know when! We just keep making them!

Our offering for this season is our range of good old favourites with a focus on the creature pens that everyone seems to love. **Rhino's, elephants, giraffes, the idiotic guinea fowl, snakes and lions;** and, true to the Africa bush, just a sprinkling of **leopards.**

Wholesale prices from R9.50 each.

Hand made with care
